PRESIDENT'S MESSAGE

AHPI Global Conclave 2026 – A Proud Moment for AHPI Tamil Nadu

It gives me immense pleasure to share with all our members that I had the honour of attending the AHPI Global Conclave 2026, held at Taj Lands End, Mumbai, during January 23–24, 2026. The conclave, themed around “Empowering Hospitals as Pillars of National Wellbeing,” brought together healthcare leaders, hospital administrators, policy makers, and industry experts from across India and overseas. The event served as an outstanding platform for learning, collaboration, and showcasing the evolving role of hospitals in strengthening national health outcomes.

Participating in this prestigious conclave was both inspiring and insightful. The sessions highlighted emerging trends in hospital administration, quality improvement, patient safety, healthcare technology, and leadership strategies essential for the future. The conclave also emphasized the need for hospitals to be not only centres of treatment but also pillars of community wellbeing, preventive health, and ethical governance. It was heartening to witness the collective commitment of AHPI members nationwide towards strengthening healthcare delivery standards and ensuring excellence across institutions.

Most importantly, I am delighted and proud to announce that AHPI Tamil Nadu has won the “Best State Chapter Award” at the AHPI Global Conclave 2026. This recognition is a significant milestone for our chapter and reflects the consistent efforts, dedication, and teamwork of the entire AHPI–TN fraternity. This award belongs to every member who has contributed to our programmes, meetings, training initiatives, outreach activities, and continuous engagement to uplift healthcare administration in our state. I thank our Secretary Mr. Adel, Vice Presidents Mrs. Gayathri Sandeep and Mr. Rambabu, Joint Secretary Dr. Eniyan and Treasurer Ms. Sandhya Cherian for their hardwork and support.

I also had the opportunity to interact with several senior leaders and administrators, exchanging ideas and exploring ways to strengthen inter–state collaboration within AHPI. Such forums reinforce the importance of unity and shared purpose in addressing the challenges faced by hospitals and healthcare systems today. I return from Mumbai with renewed motivation and a stronger vision to further enhance the activities and impact of AHPI Tamil Nadu.

On behalf of AHPI Tamil Nadu, I express my heartfelt gratitude to the AHPI national leadership for this honour and extend sincere congratulations to our entire AHPI–TN team. Let this achievement inspire us to aim even higher and continue our mission of strengthening hospitals and healthcare services for the benefit of society.

Together, let us move forward with pride, purpose, and passion.

Vaazhga AHPI. Vaazhga Tamil Nadu.

Dr.Sathish Devadoss | President, AHPI - TN

AHPI SHINE LABS

Building Competent, Confident Nursing Teams through Blended Learning

Tamil Nadu's hospitals are under constant pressure to improve clinical quality, sustain NABH standards and retain nurses in a highly competitive market. AHPI India, in collaboration with Ebekmed, offers a practical answer: certified online competency courses tightly integrated with structured, hands-on workshops.

Our Online Clinical Competency Courses give hospitals a standardised, flexible way to strengthen core and advanced nursing skills without pulling staff off duty for long periods. With more than a hundred bedside topics and over a thousand hours of structured content, nurses can learn at their own pace on mobile or desktop, complete in-built assessments and receive AHPI-endorsed certificates that support both individual career growth and institutional training records. Bundled pathways such as NABH Essentials and Specialty Care Modules (critical care, OT, emergency, medical ward, OPD and more) help nursing leaders map the right course to each role and unit, ensuring consistency of practice across the hospital.

Online learning alone is not enough, so SHINE Labs backs every digital course with high-impact, face-to-face skills training. Dedicated hands-on workshops can be conducted either at your facility or at an AHPI SHINE Co-Skills Hub. Using realistic manikins, standard equipment and Peyton's stepwise teaching model, nurses practise key procedures such as infection prevention, safe medication and infusion practices, airway and resuscitation skills, obstetric and neonatal emergencies, perioperative protocols and effective clinical communication. Each session is tightly structured: online pre-reads, live demonstration, guided practice, immediate feedback and competency sign-off, all led by experienced clinical educators.

For hospitals in Tamil Nadu, this blended model offers three clear gains:

1. Faster, safer onboarding of fresher nurses through structured induction and finishing-school style programmes.
2. Continuous, evidence-based upskilling aligned to NABH and internal SOPs.
3. Improved confidence and retention, as nurses see real investment in their professional development.

AHPI SHINE Labs invites hospitals across Tamil Nadu to partner with us in building a future-ready nursing workforce, competent at the bedside, confident in emergencies and committed to high-quality patient care. To know more, visit: www.ebekmed.com and register your hospital

Nursing skill Development Workshop

This workshop equip the nurses with hands on skills and effective clinical communication strategies for safer patient care and improve patients outcomes

Core Competencies

- Injection techniques (IM & Subcutaneous)
- IV cannulation & Infusion
- Newborn resuscitation
- Endotracheal suctioning
- Communication in clinical Practice
